**13th November , 2021**  
**1:30 PM**

**Theme:** In present days, academic organizations are working towards translational aspect of human wellbeing worldwide. However, the stake holders of the academic institutions are facing challenges in protecting intellectual property right that come-out from their research work. The focus of this seminar is to highlight the strategies to overcome the above challenges at the institutional level and its socio - legal impact in the Indian perspective. Some successful models to bring in a win-win situation to the inventor, the investor and the organization are to be reviewed.
